

PACKAGING TECHNOLOGY • BUSINESS SERVICES

BFN Consulting is owned & operated by Bryan Nugent. With over thirty-five years practical experience inside the Flexible Packaging & Label Industries Bryan understands the processes, the materials used and the issues for these dynamic manufacturing sectors.

Many years of active business development have afforded Bryan a significant network of industry contacts, throughout Australia and internationally. This is a powerful tool for the development of new markets and products.

Bryan believes that informed leadership and innovation hold the key to the future of the industry. He seeks to share his methods and strategies for business growth with companies interested in profitable niche markets

HOW CAN BFN CONSULTING ASSIST YOUR BUSINESS ?

With our understanding of the emerging technologies and industry issues we can assist you to make more informed decisions for the future of your business. We will map out the path to be taken, the strategy to be employed and the measures of your progress.

BUSINESS PLANNING AND MARKET STRATEGY

Using our network we will research, plan and implement your entry to new products and markets. Our service includes preparation of project documentation, quality plans and promotional materials, including the Internet.

NEW TECHNOLOGIES - IMPROVED PROCESSING TECHNIQUES

BFN Consulting has a diversity of skills including an understanding of many of the latest technologies still in their "infancy" in this country. We can assist your company to develop new markets that will enhance your profitability. Supported by our colleagues in Pack-Partners, we will improve your understanding of your plant's performance and boost staff morale as they witness the improvements to their efficiency.

Through our contacts we can assist you to be better informed, obtain alternatives to existing supply arrangements and gain access to technologies not locally available.
